Excellorate is for use on a wide range of plants including, but not limited to, row crops and cereals. This product is not recommended for use as a fertilizer or fertilizer substitute. A synergistic liquid blend of carbohydrates, essential plant nutrients, beneficial enzymes and naturally occurring plant and soil stimulants.

PERFORMANCE CHARACTERISTICS

- Enhances seedling vigor and early stand establishment
- Increase yields
- Will not interfere with active ingredient performance
- Enhances biological activity with organisms, such as Rhizobia, Bacillus & Trichoderma

PRODUCT CHARACTERISTICS

- Effective on corn, soybeans, cereals and other row crops
- Compatible with most seed treatments
- Not a live product, no live precautions needed
- Can be tank mixed with active ingredients
- Low use rate, not sticky
Application Use and Rates

### Seed Treatment

<table>
<thead>
<tr>
<th>Crop</th>
<th>Application Rate</th>

<tbody>
<tr>
<td>Corn: Field, Sweet and Pop</td>
<td>.5 oz per 80,000 Kernels</td>
</tr>
<tr>
<td>Soybeans</td>
<td>.5 oz per 140,000 Seeds</td>
</tr>
<tr>
<td>Cereals: Wheat, Sorghum, Oats, Spelt, Barley, Rye and Triticale</td>
<td>.5 oz per 100# of seed</td>
</tr>
</tbody>
</table>

For additional crop seed treatment recommendations, contact your ABM representative or call 877-617-2461.

**In-furrow Treatment:**
For all crops the recommended rate is to apply at least 4 fl/oz and up to 6 fl/oz per acre. Typically 5-10 gallons of water per acre of in-furrow application.

**Foliar Application:**
Product may be foliar applied at most stages of plant growth at the rate of 8 fl/oz to 16 fl/oz per acre. For best results spray when the crop is in an active growing state after irrigation or natural rainfall. Spray early in the morning or late in the afternoon for best leaf absorption. Use adequate water to wet foliage, typically 5-10 gallons of water per acre of application. (Foliar application is intended as a supplement to a regular fertilization program and will not, by itself, provide the nutrients normally required by agricultural crops.)

**Packaging**
2 x 2.5 Gal./Case or 275 Gal. IBC
